The Virginia Institute of Government (University of Virginia) was established in 1994 by the Virginia General Assembly to increase the training, technical services and information resources available to the Commonwealth’s local governments. Although the Institute operates with a small permanent staff, its capabilities are enhanced by its affiliation with the Weldon Cooper Center for Public Service at the University of Virginia. Local governments that join the Institute make annual contributions based on population. The Institute began with 60 members and now has a membership roster of over 200.
